

CASSANDRIA DAIVA
CELEBRATE LIFE.

Behind any successful DJ and music producer, you'll usually discover a strong, focused individual who's really passionate about the music scene and who knows how to connect with the crowds. I am no exception. Bringing an energetic spirit and love for the sensual grooves, I set the dancefloors ablaze everywhere I go! Whether I'm performing in nightclubs, music festivals or private parties, my experience and unique energy make me a genuine asset to the success of the event at hand.

Born out of passion for the underground house music scene of the 90's, my career began more than 15 years ago. I learnt the art of beatmatching on Technics's SL-1100 turntables, the precursors of the infamous 1200's! My unique energy stems from years of mentoring from influential music figures of the disco era who actually contributed to the birth and rise of house music in the 80's. Watching me flawlessly mix and beat match 3 decks with seamless perfection on and on for hours usually brings awe to the sharpest musical connoisseur and dazzles even the most demanding crowds.

In addition to my extensive DJ skills, I'm also an avid music producer and remixer. With my experience behind the decks, this progression came naturally and I gave birth to new releases and exciting remixes. These found their way on various labels such as Do2Night, Triskel Tech, as well as my own imprint High Gloss, and most recently Bonzai Basics. My latest releases have gained support from artists such as Osuna Paco, Sergio Fernandez, Rainer Weichhold, Junior Vasquez, Alfonso Padilla, Sergio Matina, Markus Schulz, Leg-No, Juan DDD and countless others.

I toured in Europe, played several Winter Music Conference events in Miami including club Mecca and The Dolce, and performed at one of the largest music festival in North America: WEMF. Throughout my career I've had the opportunity of sharing the decks with Mark Farina, Junior Sanchez, Alexander Technique, King Britt, DJ Heather, Jojo-flores, Da Fresh, Dan Marciano, Chuck Love, George Morel and so many more...

I also host my infamous "Erotech" show, a weekly broadcast syndicated to 9 internet radios and an FM station in Belgium, reaching listeners worldwide.

My distinctive sound is filled with lively rhythms, brightened by wild percussions, sustained by hypnotic samples and enhanced by deep enchanting basslines. My unique energy, coupled with my ability to instinctively relate with the partygoers make me a perfect addition to any venue. My character, experience and credibility help event organizers and promoters deliver quality musical entertainment that stands out and leaves the crowd wanting more.
